

# MADE TO YOUR MEASURE

You may not, but there are scores of people who do know that we make garments for men and ladies to their individual measure. They know it because they are wearing garments we have made for them. They are satisfied patrons of this department because of the stylish garments, perfect fit and the low price at which we supplied them. Just look through our sample books and you will be surprised to know how well we can fit you out at a very moderate cost---no more than ready-made and a perfect fit is assured.

## TAILORING FOR MEN

We represent one of the oldest and best established exclusive men's tailoring firms in the United States. There may be a few as good, but there are none better no matter what their prices may be. Our manager has been through every department of this establishment and can vouch for the sanitary condition under which every garment is made. A perfect plant under the supervision of expert foremen and tailors.

We are authorized to guarantee a perfect fit and first class workmanship in every garment or your money back.

Our business in made-to-measure clothes for men has increased 100 per cent every season. Why? Because every old customer comes back and sends others. Now, honestly, we can save you from \$3.50 to \$15.00 on that suit and give you materials and tailoring as good as the best. Don't take our word, but look over other lines, then look over ours. We have convinced hundreds of men in this way.

Why pay more for "hand-me-downs" when you can get your clothes made to measure---made to fit you?

Suits \$14.50 to \$40.00; Trousers \$3.75 to \$12.50; Overcoats \$12.50 to \$37.50.

## TAILORING FOR LADIES

Yes, we take orders for ladies' tailored garments too, and represent one of the best exclusive ladies' tailoring establishments in existence. You are accustomed to expect extra prices for garments made exclusively for you and prices are almost prohibitive on the great majority of such lines, but not with us. The firm we represent makes only ladies garments and employs only expert cutters and finishers. Only the best lining and trimmings are used and you can have choice of any material made up in any design you may select. More than 100 different materials and dozens of styles to select from. If you want something exclusive, something "different" that will cost you no more than ready-made, let us show you through our sample line. We can afford to take special orders for a smaller margin of profit, because we have no capital invested and no left-overs at the end of the season.

We make to your measure

Suits \$15.00 to \$50.00; Suit Jackets \$10.50 to \$25.00; Skirts \$5.75 to \$20.00; Coats and Capes \$12.50 to \$37.50; Dresses \$14.25 to \$37.50.

Look into this when ready for your fall garments. It will pay you well.

#### MILITARY COMPANY TAKES A VACATION

Thirty eight members of the Tucumcari Company of the National Guard, boarded the train at the Rock Island depot Thursday morning. They will spend a week or two in camp in California. They went over the E. P. &

S. W. to Vaughn, where they transferred to the Santa Fe. A number of the citizens of Tucumcari were at the depot to see them off. In the crowd were the wives, and sweethearts of many of the boys, and although they were not going forth to meet the enemy, there were some damp corners on some of the ladies handkerchiefs.

#### PRIZES FOR THE EUCHRE PARTY

The following prizes have been donated for the Euchre Party to be given by the Catholic Church at the Childwell Cafe: Blitz, Jeweler, Cut glass cream pitcher, Wells Fargo Book Store, Burnt Leather Center Piece, American Furniture Co., Cut Glass Bon Bon Tray, John C. J. M. Savage, who lives near House in this county, was in the News office this week. Mr. Savage told the News of an irrigation project by which the water will be taken from shallow wells from 12 to 25 feet deep and will be pumped into a reservoir at the head of a valley about one mile wide and twelve miles long. He states that there is an abundance of water at a depth of not more than twenty feet, and he is planning to irrigate about two hundred acres of land. He is very optimistic over the proposition, and he believes that there will be more than a thousand

acres under water in his vicinity in twelve months. He has tried alfalfa, and it has lived through the last three dry years, and he is sure that the roots have reached the water, and from now on there will be an abundant yield every year. He has cut three crops this year, and expects to get one, and perhaps two more this season.
